LUX YOGA

DATA & BUSINESS ANALYTICS PROFESSIONAL

PROFILE

Data professional with 6+ years in Financial Analysis & Accounting and 5 years across Project Management, UX, and Web Development. I bridge business and technology to deliver analytics, automation, and end-to-end data solutions. Proficient in SQL, Python, BI (Power BI/Tableau), and ETL/orchestration; hands-on with PySpark, Airflow, Docker, Streamlit, and DuckDB. I translate messy, real-world data into decisions that improve margin, forecasting accuracy, and operational efficiency. Now based in Copenhagen from Toronto, Canada and learning Danish.

WORK EXPERIENCE

- **Senior Project Accountant** 02/2020 - 11/2023
BDP Quadrangle
 - Owned project finance data across residential/commercial portfolio; built KPI dashboards (cost, revenue, WIP, variance) improving budget accuracy to $\leq 5\%$.
 - Automated monthly reporting workflows (Excel/SQL/Python), cutting cycle time by 25%.
 - Partnered with PMs on forecasting burn, margin, and cash flow; flagged at-risk projects improving profitability by 15%.
- **Financial Analyst** 01/2018 - 02/2020
IBI Group
 - Produced Revenue & Billing Reports and dashboards for directors, improving visibility into contract changes and AR.
 - Conducted Variance Analysis and scenario modeling, supporting pricing and staffing decisions.
- **Project Accountant** 03/2016 - 01/2018
Holt Renfrew
 - Managed Capex Tracking for retail expansion projects; built reporting packs aligning construction and merch teams.
 - Improved ERP workflows and financial data quality across cost centers.

DATA PROJECTS

- **Copenhagen Bike & Weather Pipeline**
Airflow • PySpark • PostgreSQL • Streamlit • Docker
 - Built a containerized Data Engineering Pipeline ingesting bike traffic + weather data, orchestrated with Airflow, processed with PySpark, and visualized in Streamlit. Processed 194M+ rides across 10 years.
- **Competitive VGC Pokémon Usage Stats**
DuckDB • GitHub Actions • Streamlit • SQL
 - Automated monthly data ingestion and SQL queries with DuckDB + GitHub Actions, delivering an interactive Streamlit dashboard for real-time competitive trend analysis.
- **Polygon Stock Data Extraction**
Python • REST API • Scheduling
 - Developed a scheduled Python API pipeline with Polygon.io to extract and prepare stock data for Financial Analysis and Forecasting.
