

Lux Yoga

Toronto, Canada • Open to Remote

luxman.yoga@gmail.com | [linkedin.com/in/luxyoga](https://www.linkedin.com/in/luxyoga) | github.com/luxyoga | lux-data.vercel.app

Data Analyst with 5+ years using SQL, Python, and BI tools to turn product, revenue, and operational data into decisions. Built and deployed production data tools, including a natural language to SQL app querying 228,000+ records.

PMP-certified, with a track record of delivering across remote, cross-functional teams in Canadian and international organizations.

TECHNICAL SKILLS

Languages: Python (Pandas, NumPy), SQL (PostgreSQL, MySQL)

AI & LLM Tooling: Claude API, LLM Integration, Prompt Engineering, NL-to-SQL

Analytics & BI: Power BI, Tableau, Excel (Advanced), Google Analytics

Data Platforms & Tools: AWS, Airflow, Spark, PySpark, Docker, Git, JIRA, Snowflake

Collaboration & Async Tools: Slack, Notion, Confluence

Core Skills: KPI Definition & Reporting, Dashboard Design, Data Visualization, Data Cleaning & EDA, Stakeholder Reporting, Cross-Functional Collaboration

WORK EXPERIENCE

Data Analyst

06/2025 - 12/2025

JD Sports Fashion (Contract, Remote)

Copenhagen, Denmark

- Queried SQL retail datasets and built Tableau dashboards analyzing sell-through, margin, and store KPIs across 100+ EU and NA stores to support merchandising and pricing decisions.
- Designed and automated 10+ dashboards, improving reporting efficiency by 30%+ and enabling faster access to performance insights for distributed commercial teams.
- Delivered margin and profitability analysis across 7-figure revenue lines in 12 markets, informing pricing and promotional strategy.

Project Manager, Digital

04/2023 - 06/2025

Ascend Fundraising Solutions

Toronto, Canada

- Queried and modeled 650K+ product interaction events to surface usage patterns and drive feature adoption decisions.
- Partnered with Product and Marketing to define and standardize KPIs across 10+ launches, enabling data-driven roadmap prioritization.
- Built Power BI dashboards tracking NPS, churn, and ARR by segment, reducing ad-hoc reporting by 25%+.

Project Accountant

04/2019 - 11/2022

BDP Quadrangle

Toronto, Canada

- Built ETL workflows across SAP and Deltek ERP systems, standardizing project and CRM data for financial reporting across 50+ architectural projects.
- Created interactive reports used by 20+ stakeholders to track revenue trends, project profitability, and ROI.
- Unified billing and accounting data from multiple systems, cutting reporting turnaround by 30% and improving profitability visibility.

DATA PROJECTS

Toronto Permit Pulse: Natural Language to SQL (NL-to-SQL) App

Python • Claude API • DuckDB • Streamlit

- Built and deployed a natural language to SQL (NL-to-SQL) app letting users query 228,000+ City of Toronto building permits in plain English, powered by the Claude API over a multi-table DuckDB schema.

Copenhagen Bike & Weather Pipeline

Airflow • PySpark • PostgreSQL • Streamlit • Docker

- Built an end-to-end ETL pipeline ingesting and modeling 194M+ records into clean, reusable datasets to support long-term trend analysis.

Retail Sales Analysis: 10-Year Trends Across EU, UK & NA

Tableau • SQL • Excel • Data Modeling • Data Visualization

- Built a 10-year footwear sales dashboard using 100K+ modeled records across 4 datasets to analyse YoY sales, profit, and volume trends.
