

Lux Yoga

Toronto, Canada • Open to Remote

luxman.yoga@gmail.com | [linkedin.com/in/luxyoga](https://www.linkedin.com/in/luxyoga) | github.com/luxyoga | lux-data.vercel.app

Data Analyst with 5+ years of experience using SQL, Python, and BI tools to inform product, revenue, and operational decisions. Experienced delivering in remote and distributed team environments across Canadian and international organisations, partnering closely with Product, Engineering, Design, and Operations.

TECHNICAL SKILLS

Languages: Python, SQL (PostgreSQL, MySQL), Pandas, NumPy

Analytics & BI: Power BI, Tableau, Excel (Advanced), Google Analytics

Data Platforms & Tools: Snowflake, AWS, Airflow, Spark, PySpark, Docker, Git, JIRA

Collaboration & Async Tools: Slack, Notion, Confluence

Core Skills: KPI Definition & Reporting, Dashboard Design, Data Visualisation, Data Cleaning & EDA, Stakeholder Reporting, Cross-Functional Collaboration

WORK EXPERIENCE

Business Analyst

06/2025 - 12/2025

JD Sports Fashion (Contract, Remote)

Copenhagen, Denmark

- Queried SQL retail datasets and built Tableau dashboards analysing sell-through, margin, and store KPIs across 100+ EU and NA stores to support merchandising and pricing decisions.
- Designed and automated 10+ dashboards, improving reporting efficiency by 30%+ and enabling faster access to performance insights for distributed commercial teams.
- Delivered margin and profitability insights on product performance and regional demand, informing pricing and promotional strategies across 7-figure revenue lines.

Product Data Analyst

11/2023 - 06/2025

Ascend Fundraising Solutions

Toronto, Canada

- Queried and modelled 650K+ product interaction events in Snowflake to surface usage patterns and drive feature adoption decisions.
- Partnered with Product and Marketing to define and standardise KPIs for 10+ launches, including metric definitions and edge case handling, enabling data-driven roadmap prioritisation.
- Built Power BI dashboards tracking NPS, churn, and ARR per segment, reducing ad-hoc reporting by 25%+.

Data Analyst

11/2020 - 11/2023

BDP Quadrangle

Toronto, Canada

- Built ETL workflows across SAP and Deltek ERP systems, standardising project accounting and CRM data for financial reporting across 50+ architectural projects.
- Created interactive reports used by 20+ stakeholders to track revenue trends, project profitability, and campaign ROI.
- Unified billing and accounting data from multiple systems, cutting reporting turnaround by 30% and improving project profitability visibility.

DATA PROJECTS

Toronto Permit Pulse

Python • Claude API • DuckDB • Streamlit

- Built and deployed a Natural Language - SQL app letting users query 228,000+ City of Toronto building permits in plain English, powered by the Claude API over a multi-table DuckDB schema.

Copenhagen Bike & Weather Pipeline

Airflow • PySpark • PostgreSQL • Streamlit • Docker

- Built an end-to-end ETL pipeline ingesting and modelling 194M+ records into clean, reusable datasets to support long-term trend analysis.

Footwear Sales Analytics Dashboard

Tableau • SQL • Excel • Data Modeling • Data Visualisation

- Built a 10-year footwear sales dashboard using 100K+ modelled records across 4 datasets to analyse YoY sales, profit, and volume trends.

EDUCATION AND CERTIFICATIONS

- Project Management Professional (PMP), PMI. 2024
- Google Data Analytics Professional Certificate, Coursera. 2025
- B.Sc Honours Science (Minors: Economics & Biology), University of Waterloo. 2015
- User Experience Design & Front-End Web Development, University of Toronto. 2018
